

Kadir Has University

Computational Neuroscientist

Kadir Has University invites applications for a tenure-track faculty assistant /adjunct professor and visiting scholar positions in computational human neuroscience.

Key selection criteria will include research excellence, originality of science, and future impact on the field of neuroscience and related disciplines. Applicants should have a strong track record in computational neuroscience research and a Ph.D. in the life sciences, computer science, biomedical engineering, psychology, or a closely related discipline.

Applicants must have an excellent record of research productivity and demonstrate the ability to develop a rigorous research program. We are particularly interested in applicants pursuing research directions with significant integration across traditional disciplinary boundaries (including, but not limited to, learning, memory, cognitive control, perception, attention, affective regulation, and communication), who incorporate novel empirical, theoretical or analytic methods (e.g. computational modeling, analysis of large datasets) in their research.

Successful candidates will be expected to establish and maintain an externally funded research program and to teach courses both at the undergraduate and graduate levels in computational neuroscience and related topics.

Qualifications

The successful candidate must have a PhD in related fields, with a few years of postdoctoral experience. The candidate should

- have a demonstrated research expertise, as witnessed by outstanding publications, high-profile research projects, and an international network
- have a Demonstrated teaching expertise
- have good communication skills and be a team player
- be fluent in English

Please submit your CV, your transcripts (university grades), and the names and contact information of three referees. Potential candidates will be contacted for an interview.

Job Information

Institution: Kadir Has University

Address: Kadir Has University, Rectorate, Cibali mh. Kadir Has cd. Fatih/İstanbul 34083 TURKEY

Phone: 90 212 533 65 32

E-mail: selin.karabuz@khas.edu.tr, rektorluk@khas.edu.tr

Kadir Has University

Experimental Neuroscientist

Kadir Has University invites applications for a tenure-track faculty assistant/associate/adjunct professor and visiting scholar positions in experimental neuroscience.

Key selection criteria will include research excellence, originality of science, and future impact on the field of neuroscience and related disciplines. Applicants should have a strong track record in experimental neuroscience research and demonstrate the ability to develop a rigorous research program. Successful candidates will be expected to establish and maintain an externally funded research program and to teach both at the undergraduate and graduate levels in experimental neuroscience and related topics.

Potential topics include,

- Neurophysiology
- Cellular and Molecular Neurobiology
- Developmental Neurobiology
- Neuropsychology
- Behavioral Neuroscience

Qualifications

The successful candidate must have a PhD in related fields, with a few years of postdoctoral experience. The candidate should

- have a demonstrated research expertise, as witnessed by outstanding publications, high-profile research projects, and an international network
- have a Demonstrated teaching expertise
- have good communication skills and be a team player
- be fluent in English

Please submit your CV, your transcripts (university grades), and the names and contact information of three referees. Potential candidates will be contacted for an interview.
